**DETAILED ACTION**

***Response to Amendment***

This is a response to Applicant's amendment filed 1/30/07.

***Allowable Subject Matter***

Claims 1 and 3-23 are allowed.

The following is an examiner's statement of reasons for allowance: Regarding independent claim 1, Do et al. (US Pat No 5852519) discloses the claimed invention in general, with optical components pivotably movable within a housing, however does not disclose the dimension of an interior of the housing from the longitudinal axis to the inside wall of the housing in a pivot plane of the components to be 1.5 to 2 times as great as the greatest dimension of the component in the pivot plane. Regarding independent claim 3, Do fails to disclose the invention wherein a distance of said outer edge of the optical component from the pivot axis is in the range of between half to three quarters of a dimension of an interior of the housing from the longitudinal axis to the inside wall of the housing. Regarding independent claim 11, Do discloses the claimed invention in general with a further optical component, but does not disclose an actuating mechanism having an adjustment member where one component is pivoted out from a light beam path when the adjustment member is moved from a starting position to a first operating position, and in a second operating position opposite the first operating position, the other component is pivoted into the light beam path. Regarding independent claim 15, Do discloses the invention as claimed except for magnetically driven driver elements. The prior art does not disclose or suggest the invention with the features detailed above.
